A great place to grow...

WELCOME!

To The World
of Fun, Laughter
& Learning...

FOUNDER'S MESSAGE

Dr. Virendra Kumar Bhatnagar

"Tamsa Ma, Jyotir Ganya"

"From the darkness of ignorance' lead me to the light of knowledge and enlightenment"

-Bhagvad Gita

I see not just a face, but what the child could grow up to be. The curiosity in the innocent eyes, the carefree laughter filled with purity and the immense potential in that keen mind that is uncorrupted by the ways of this world. It is this potential that we must develop to its fullest. It is this curiosity that not only needs to be satiated but also to be fuelled to greater heights. The curious eyes must be shown all that there is in the world and all that can be. These children need to be given knowledge and vision to look beyond what is obvious and visible.

It is this aim, this vision that I have for each child entering the gates of our school. I look not to overload the child with meaningless data that he may only momentarily remember to pass the test, but to give him an everlasting understanding of concepts. I intend to nurture them so they may stand up tomorrow to question the conventional methods & ways with new ideas, innovations, and knowledge.

When I achieve this aim, I will know that I have not just given food to a hungry mouth, but have also taught him how to grow his own crop. The child will be enlightened and will be cultured to carry this torch of knowledge further. This will be the torch of the legacy we intend to leave behind, a legacy that will ignite the light of knowledge amongst many and will not just be some words in some book.

OUR PHILOSOPHY

It is not just about making children learn from books, it is about providing an environment where they learn from nature and from each other. It is this philosophy of empowering the children with such life –skills that make sure the students are capable, responsible and driven throughout their lives. Study, growth and play are the three pillars of this institution. It is our belief that children learn more when they are having fun and are engaged in age- appropriate activities.

Mission & Vision

Saplings aims to raise a generation of students who make their own place in a globally competitive world.

Our vision is to nurture the children, by helping them widen their horizons, to discover and achieve their hidden potential.

OUR CAMPUS

Our state-of-the-art building has become a design icon. Its ergonomic spaces & bright spacious interiors beckon you. The smartly designed building makes the most of all available spaces to give our students the maximum benefit. Centrally air-conditioned campus, with bright, stimulating decor gives the little ones a fun and comfortable learning atmosphere.

We at Saplings...
Provide our little ones with firm soil of moral values that will keep them well grounded to their roots, helping them to blossom to their fullest.

The sunshine and warmth of our extensive curriculum nurtures & strengthen their minds. We water them with our love and care, helping them to breathe in the oxygen of creativity and imagination.

Thus, transforming them into global citizens ready to embrace the world!

values

International Early Years Curriculum

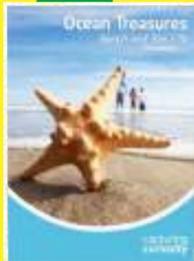

Ocean Treasure

The Big Picture

Over 70% of the world is covered with water. There are five oceans- the Pacific, the Atlantic, the Indian, the Arctic and the Southern Ocean. They are all connected and provide a home for thousands of species of plants and animals. Have you ever wondered what you might find under the sea? So let's get ready to take a plunge and see what we can find.

Entry Point

Transform your activity area into a beach using sand, blue satin, sea creatures, pool, chairs, pebbles etc. Let the children observe and discuss the activities that might take place on the beach and in the sea such as sailing, surfing, sunbathing, beach games etc.

Personal, Social and Emotional

In personal, social and emotional we'll be finding out

- The different textures by walking on them like wet sand tub, dry sand tub, leaves tub, shell tub and water tub.
- About the role play of the characters of "Rainbow Fish" Story

Expressive Art

In art, we'll be finding out:

- About different patterns in the sand
- About weaving a net
- About creating a sea book

Multimedia

In multimedia, we'll be finding out

- About "life under the sea" through presentation
- How to draw and colour waves, fish and other sea creature using MS. Paint

Mathematics

In mathematics, we'll be finding out:

- About the concept of Big and small, heavy and light.
- How to order the pictures of sea creatures according to size.
- About making the waves using number cards.
- About counting the number of big waves and small waves.
- How to compare colours and features of Whales.

Physical Education

In Physical development, we'll be

- Challenging children to cross the net.
- Looking for the fish by dangling the rods.
- Helping the baby turtle to reach the sea.
- Pretending as school of fish and move freely in the sea wood forest.
- Learning fish pose, turtle pose, beach chair pose, mud castle pose (Yoga)

Exit Point

Celebrating the children's learning with parents and community by setting up the various art work and models created over the course of unit, perform dolphin show, enactment on the stories, play wise octopus game, serve sea themed refreshments such as jellies, sea shell pasta etc.

Language and Literacy

In language and literacy we'll be finding out:

- About different story books
- About the concept of dark and light
- About how sea creatures move in their ocean environment.
- About the divers plunging beneath the waves

Understanding the world

In understanding the world, we'll be finding out:

- About the names of different whales around the world

my Little world

The school building is a pure reflection of vibrant and lively outdoors and indoors. The rooms provide a comfortable, secure and nurturing environment where the child feels contented and radiant to come to school.

- Child Friendly Building
- Colorful Ambience
- Complete School Under CCTV Surveillance
- Rich Learning Environment
- Fire Safety System
- 3-D Theatre
- Smart Board Aided Rooms
- Hi-Tech Computer Centre
- Well Equipped Library
- Resource Centre
- Attractive Class Rooms
- Centre for Dance
- Art and Craft Centre

Creating a **Global COMMUNITY** of learners

We are always working towards our goal of moulding our pupils into culturally rich and tolerant citizens. The school believes that the world is a global family and unity among its people and nations is essential for global peace and harmony. International exposure sows the seeds for promoting world peace and tolerance. Our students are exposed to international education and learning methodology.

A welcoming smile and caring demeanour makes Saplings a **'Happy Place'** for children. Everyday activities in school foster a sense of excitement for incredible learning outcomes amongst the children to reach a milestone.

Winners of tomorrow

**“Teach me, and I will forget.
Show me, and I might remember.
Involve me, and I will never forget.”**

Co-curricular activities surpass the four walls of a classroom and give an opportunity to the children to evolve as “Thy Own Self”. The concept of an activity based system helps to create a balance between academics and co curricular activities which motivates the child to excel in all fields.

We offer enriching programs and activities that evoke the thinking process, influence behavioral patterns thus enlightening the path towards education and learning.

The school offers a wide spectrum of activities that compliments the growth of the students and help them work together:

- Instrumental Music
- Aerobics/ Zumba
- Skating
- Dance
- Table-tennis
- Yoga
- Taekwondo
- Story-telling
- Nature walk
- Splash pool
- Art & Craft
- Theatre

play, learn & express

Recreational activities bring out the creativity of a student in the most productive manner. Saplings gives ample opportunities to students for aesthetic and creative expression through a wide range of experiences that help in the holistic development of each child.

Learners for **Life**

Saplings believes in a constructive and participative educational philosophy to empower each child to reach their full potential as individuals.

Committed to educational excellence, we believe in "Active-learning" resulting in holistic development of a child.

Young children have impressionable minds. Therefore it is of paramount concern that the teachers filling their minds are at their best. Keeping the overall development of the child in mind, we follow a methodology of mixing practical education, along with refined academic curriculum to enrich and stimulate their minds.

Experienced & Talented **Educators**

The school faculty and administration is experienced and trained to meet the needs of children and parents in all aspects. Our competent and trained teachers with their deep knowledge of pedagogical practices are equipped to understand the psychology of every child.

Extending education beyond conventional boundaries, the school staff maintains a high standard of qualification to serve the needs of the children.

**We made it
Big!!!!**

The school has been conferred
with the Award,
**“IMPRESSIVE
INFRASTRUCTURE
IN EARLY
EDUCATION”**
by, ScooNews, Global
Education Awards.
