ABOUT KANGAROO KIDS

KANGAROO KIDS, pre-primary wing of Billabong High International School, is a pioneer in education that changed the landscape of the category with its innovative teaching & learning methodology. Our unique proprietary pedagogical model was developed over 20 years with more than 150,000 man-hours spent on the research and design which is based on contemporary educational research, neuroscience and energy science.

KANGAROO KIDS IS A BLEND OF

- Sight reading (whole language approach which caters to visual learners).
- Phonics (which refers to the sounds made by individual letters and letter combinations and caters to auditory learners)
- Kinaesthetic (tactile) activities that involve movement such as finger tracing and physical games.

OUR CURRICULUM

Kangaroo Kids Preschool is recognized by mainstream schools as an institution that produces confident, creative and eager learners. The unique program is a new concept in learning and incorporates path-breaking brain research. An optimum teacher-student ratio ensures effective implementation of this activity-based curriculum.

RANKED #1 IN INDIA UNDER TOP CBSE SCHOOLS

FROM FOUNDER'S DESK

As a teacher teaching in Australia in the late 80's I knew inherently that only if I learnt how to engage my students, was assimilation of knowledge or acquisition of skills possible. Today with the advent of technology and the advances in science and medicine, brain research is validating what passionate teachers inherently and always knew. Kangaroo Kids Education Ltd. (KKEL) has always stood for a system of education that espouses child-centric education.

LINA ASHAR

JASMINE GANDHI

FROM DIRECTOR'S DESK

At the heart of human development is education and learning by experience. Each child is a unique individual who needs a secure, caring, and stimulating atmosphere to grow and mature emotionally, intellectually, physically, and socially. As an educator, we ought to provide students with an environment that is safe, supports risk-taking, and invites a sharing of ideas to meet their fullest potential in these areas. Students need to develop a deep love and respect for themselves, others, and their environment occurs through an open sharing of ideas and a judicious approach to discipline.

FROM PRINCIPAL'S DESK

Learning is a process of experiencing joy and being mindful of oneself. It transcends time, space, and thoughts. The moment we realize our inner sensibilities correlating it with the outside world or environment, we have set ourselves on the path of joyful learning.

When learning becomes joyful and insightful, it transforms your thoughts of fear, anger, frustration & despair to peace, meditative, uplifting, and a sense of gratitude. Life and the world around you offer unexplored opportunities. If you intensely look at nature – the sun, the wind, plants, trees, water continue to give and sustain life on earth because that is what they are meant to do without any discrimination, so too humans are born with higher intelligence to experience this freedom – freedom of creativity, happiness and harmony.

“

I have seen a lot of improvement in my child. It is a nice school in terms of safety, food hygiene and infrastructure. Teachers are really good. They have a different way of teaching.

Nitara Gupta's Mother, Ms. Aatika

”

We came to know where our child is doing well and where further improvement can be done. Teachers are very much helpful who keep on guiding us on the overall well - being of the child.

Advik Nathani's Father, Mr. Ankit

“

It has been an excellent and satisfying experience for me with the school.

Saanjh Sharma's Mother, Ms. Bhawna Sharma

“ PARENT'S TESTIMONIALS ”

“

Keep doing the great work you are doing!

Shivaan Mishra's Mother, Ms. Neha Mishra

”

So far so good. Thanks to all the teachers and faculty!

Alaisha Arora's Father, Mr. Nikhil Arora

“

It is a very nice experience with Billabong School. Really appreciate the practical interactive teaching techniques. Also appreciate the teaching seminars being arranged for parents - very interactive sessions where new techniques are taught to kids, in fact I will say that very rarely do we see such excellent teaching techniques - even books given to kids are also very unique.

Rhythm Arya's Father, Shyamali Arya
